Dear Villa Owner:

Re: Petition to hold Special Members' Meeting

With the recent discovery of termites in two condos in the East neighborhood, the Villas Board obtained a proposal from *Bug Free* to have a specific treatment, soaked into the soil, that provides a long-lasting barrier against subterranean termite infestation. The total cost for the entire villas neighborhood is less than \$3,000, and provides a holistic approach to the ever-present threat of termites.

I have covered this matter in several postings on the blog at www.coconutshores.net.

I am seeking support for a petition to hold a Special Members' Meeting of the Villas association. ***At this meeting, the members will vote (in person or by proxy) to determine whether or not the Villas association should proceed with preventative termite treatment to the soil surrounding the buildings as a common expense, without the requirement for a special assessment, at the earliest opportunity.***

Whether you are for or against, I hope you will agree the members should vote on this important issue. Please support my petition by signing below and returning this letter to me by mail at the earliest opportunity. For resident owners, you can telephone me on (239) 273-9177 or e-mail mkelly@coconutshores.net, and I will be happy to pick up the signed letter in person, to save on unnecessary postage.

Respectfully,

Martin Kelly

I support the petition to hold a Special Members' Meeting of *The Villas at Coconut Shores Owners Association, Inc.* to vote on the above mentioned proposal.
